PROFESSIONAL SUMMARY

IT Support Engineer with hands-on experience in enterprise environments across financial services and nonprofit sectors, specializing in Identity & Access Management (IAM), endpoint security, and IT operations. Proficient in Active Directory, Okta SSO, Microsoft Intune, and CrowdStrike Falcon, supporting 300+ users across the Americas, EMEA, and APAC. Proven ability to implement security controls, manage full identity lifecycles, and deliver reliable technical support in fast-paced, high-stakes environments.

TECHNICAL SKILLS

- **Identity & Access Management:** Okta, Azure/Entra ID, Active Directory, Group Policy (GPO), MFA/SSO Implementation, Last Pass, 1Password, Google Password Manager
- **Endpoint & Device Management:** Intune MDM, IBM MaaS360, IGEL UMS, Citrix XenDesktop
- **Security Tools & Platforms:** CrowdStrike Falcon, Microsoft Defender, Darktrace, Abnormal AI, KnowBe4, Tenable Nessus
- **Cloud & Infrastructure:** Azure (Intune, EntraID, M365 Admin, Exchange), SharePoint, Egnyte, OneDrive, Office 365
- **Ticketing & ITSM:** Jira Atlassian, Outlook, Teams, Slack, IT Service Management workflows
- **Security Operations:** Log analysis, threat detection, phishing simulation, vulnerability scanning, DLP implementation
- **Scripting & Automation:** PowerShell, Python, Bash, SQL queries
- **Operating Systems:** Windows 10/11 Enterprise, Windows Server, Android, Linux (Kali, Ubuntu), Chrome OS

WORK EXPERIENCE

Muzinich & Co

08/2025 – Present

IT Consultant

Manhattan, NYC

- Administer Active Directory Domain Services (ADDS) and Intune MDM for 300+ users across the Americas, EMEA, and APAC, managing distribution list access, Group Policy Objects (GPO), security groups, and storage access provisioning.
- Resolve 95% of L1 & L2 support tickets on first contact, delivering premium white-glove service, minimizing downtime for users including C-level executives and trading floor staff both in-office and remotely.
- Implement, test, and maintain Okta Single Sign-On (SSO) integrations for 25+ enterprise applications using SAML and OAuth, consolidating authentication to a single credential and reducing password reset tickets by 45%.
- Manage full identity lifecycle — onboarding, role changes, and offboarding — ensuring compliance with SOX and data privacy regulations.
- Design and manage phishing simulation campaigns in KnowBe4, training users to recognize and report threats to strengthen company-wide security awareness.
- Manage Endpoint Detection and Response (EDR) using CrowdStrike Falcon, maintaining sensor updates, investigating alerts, and coordinating with the SOC team for threat remediation.
- Manage Okta IAM operations including access permissions, account lifecycle, and authenticator management, while analyzing activity logs to troubleshoot and resolve authentication issues.
- Collaborated with senior network and security engineers to support and validate a full-scale Azure disaster recovery (DR) test across the organization.
- Administer Citrix XenDesktop and Citrix Director, ensuring seamless user access by managing sessions, optimizing system resources, and troubleshooting network connectivity issues.
- Conduct log analysis and threat hunting using Microsoft Defender, Darktrace, and Abnormal AI to identify and remediate security incidents.
- Administer Zoom and Poly platforms, managing configurations, updates, and security settings to support reliable communication across global teams, including A/V setup and management for conference rooms, C-suite meetings, and executive presentations.
- Deploy, configure, and decommission laptops, PCs, and mobile devices, including full workstation setup with monitors, printers, docking stations, and peripherals.
- Led evaluation and testing of OpenAI, Claude, and Microsoft Copilot to identify the optimal AI model for Office 365 integration, projected to reduce time spent by credit analysts and portfolio managers by up to 30%.

- Support Bloomberg Terminal and API services for traders and analysts, coordinating with Bloomberg Support for issue resolution and managing the Bloomberg Excel Add-in for seamless financial data integration.
- Collaborate with security engineers to embed security controls into laptops, applications, and system designs; conduct pre-deployment testing of weekly security patches, distribute approved updates company-wide, and remediate software vulnerable to zero-day exploits.
- Administer IGEL devices via the IGEL Universal Management Suite (UMS), providing remote support through session shadowing, troubleshooting, and device management, while overseeing secure decommissioning processes.

Center For Justice Innovation

11/2024 – 03/2025

Technical Support Analyst

Manhattan, NYC

- Administered Active Directory and IBM MaaS360 MDM for 900+ users across 6 locations, managing user accounts, group policies, security groups, and device compliance.
- Managed IT asset lifecycle — imaging, deployment, and decommissioning — for 200+ laptops and mobile devices.
- Provided Level 1-2 helpdesk support via Jira for users onsite at headquarters, across 6 locations, and remotely, resolving hardware, software, and connectivity issues.
- Deployed and configured IT hardware across four branch offices, troubleshooting technical issues to support efficient new hire onboarding.
- Traveled to branch offices to deploy and configure IT hardware and train staff, streamlining onboarding for new hires.
- Configured and supported conference room A/V systems, Zoom, and camera setups to enable reliable hybrid collaboration across teams.

Moore Capital Management

05/2024 – 08/2024

Information Technology Intern

Manhattan, NYC

- Provided Level 1 support to the trading floor, minimizing downtime during peak market hours.
- Collaborated with the Senior Security Engineer to implement DLP USB device control solutions, integrating user lifecycle processes with endpoint security measures to protect sensitive trading floor data.
- Built and deployed 100+ user workstations with full desk setups, including monitors, docking stations, and desktop VoIP phones.
- Resolved end user issues via the ticketing system, delivering timely technical support to 300+ employees.
- Configured and maintained Zoom conference rooms enterprise-wide, including Logitech camera setup and integration.
- Developed a comprehensive company-wide application inventory, driving timely updates, batch processing, and decommissioning of obsolete applications.

EDUCATION

John Jay College of Criminal Justice

Graduated May 2025

Bachelor of Science in Computer Science and Information Security

Manhattan, NYC

- GPA: 3.92/4.00 (Summa Cum Laude)
- Coursework: Computer Networking, Advanced Algorithms, Cryptography, Data Structures, Computer Security, Programming Languages, Capstones 1 & 2 in Cybersecurity.

IT TRAINING & PROJECTS

- Built a Compact Virtual Home Lab for a Small Enterprise, integrating a Microsoft Server 2017, Active Directory, group policies, and Windows 10, and implemented multi-platform security across Windows and Linux environments.
- Developed a program in Python for encrypting and decrypting documents securely using RSA encryption technique.
- Created and deployed a Honeypot using T-Pot, leveraging Azure cloud hosting for configuration and implementation.
- Deployed Snort IDS on Kali Linux, analyzed attacks using PCAP files, and documented findings for threat assessment.
