TECHNICAL SKILLS

Identity & Access Management: Okta, Microsoft Entra ID, Active Directory, Group Policy (GPO), MFA/SSO, SAML, SCIM, User Lifecycle Management, Conditional Access

Cloud & Infrastructure: Microsoft Azure, Microsoft 365, Exchange Online, SharePoint, Office 365, Egnyte, Dell TechDirect

Endpoint & Device Management: Intune (MDM/MAM, Win32 Packaging, Autopilot), IBM MaaS360, IGEL, Citrix, Patch My PC

Security Tools & Platforms: CrowdStrike Falcon, Microsoft Defender, Darktrace, Abnormal AI, KnowBe4, Tenable Nessus

Security Operations: EDR Administration, Email Security & Phishing Controls, Vulnerability Remediation, Patch Management, Incident Response, Security Awareness Training, Log Review

Scripting & Automation: PowerShell, Python, Bash, SQL

ITSM & Tools: Jira (ITIL-aligned), Runbook & SOP Development, Teams, Slack, TeamViewer, 1Password, LastPass

Operating Systems: Windows 11 Enterprise, Windows Server, Linux (Ubuntu, Kali), macOS, ChromeOS, Android, iOS

A/V & Conferencing: Zoom, Poly, Logitech

EXPERIENCE

Gotham Technology Group

New York, NY

IT Consultant | client: Muzinich & Co

Aug 2025 – Present

- Own full user lifecycle (JML) for 300+ users (Americas, EMEA, APAC) across **Okta**, Entra ID, and **Active Directory** — OU structure and GPO administration, group and role assignment, and provisioning user access across 20+ SCIM-integrated SaaS apps.
- Administer **Microsoft 365** tenant (Exchange Online, SharePoint, Teams) — mailbox configuration (permissions, forwarding, retention), distribution list and shared mailbox management, and M365 license assignment.
- Configure and deploy **centralized endpoint management portal** consolidating log collection, hardware diagnostics, and driver enforcement; coordinate vendor SSO integration and onboard all IT admins.
- Administer **CrowdStrike Falcon EDR and Darktrace** — maintaining sensor health, reviewing alerts, clearing Antigena blocks, and quarantining compromised devices; pre-deployment test weekly patches and remediate **zero-day vulnerabilities** company-wide.
- Manage Intune Win32 app packaging and deployment; administer conditional access policies across the tenant.
- Administer **Egnyte Enterprise File Sharing** — managing folder structure, access permissions, folder locking, and user provisioning to enforce data governance across a global tenant.
- Secure email stack (**Abnormal AI, Defender**) — phishing controls, quarantine emails, and domain whitelisting for 300+ global users; run KnowBe4 phishing simulations company-wide monthly and track each user's clicking rate.
- Serve as primary **L1/L2** support via Jira; **maintain 95% first-contact resolution** — white-glove support for C-suite executives and Bloomberg Terminal users on the trading floor; participate in rotating on-call coverage for after-hours remote support and incident response.
- Author **runbooks and SOPs** reducing resolution time and accelerating IT staff onboarding.
- Administer **Citrix XenDesktop** environments, managing user sessions, optimizing resources, and resolving connectivity issues to ensure consistent and reliable access.
- Manage **Zoom Rooms and Poly AV infrastructure** — handling hardware upkeep, software updates, and end-to-end troubleshooting; collaborate with vendors to ensure reliable meeting experiences across executive and company-wide events.

Center For Justice Innovation

New York, NY

Technical Support Analyst

Nov 2024 – Mar 2025

- Administered Active Directory and **IBM MaaS360** for **900+** users across 6 sites — managing accounts, group policies, and security groups; enforcing device compliance for laptops and company-issued phones.
- Provided **Level 1-2 helpdesk support** via Jira at HQ, 6 branch locations, and remotely — resolving hardware, software, and connectivity issues.
- Deployed and configured laptops, desktops, and mobile devices across **all four NYC boroughs** — full workstation setups including monitors, docking stations, peripherals, and printers.
- Performed on-site visits to branch offices — deploying hardware, **training end users**, and configuring **Zoom A/V** systems to support reliable hybrid meeting environments.

Moore Capital Management

New York, NY

Information Technology Intern

May 2024 – Aug 2024

- Resolved Level 1 end-user issues via Jira for **300+ trading floor employees**, minimizing downtime during peak market hours.
- Collaborated with Senior Security Engineer to implement **DLP USB device control** — integrated user lifecycle with endpoint security to protect sensitive trading floor data.
- Built and deployed **150+ user workstations** and peripherals; configured **Logitech A/V** conference room environments enterprise-wide.
- Built company-wide **application inventory** driving batch patch updates and decommissioning of obsolete software.

CERTIFICATIONS

• Google Cybersecurity Professional | IriusRisk Threat Modeling Certified | ArcX Cyber Threat Intelligence 101 | Cisco Networking Basics | Blue Team Security – Introduction to OSINT | CompTIA Network+ (prep)
• CompTIA Security+ | Microsoft AZ-104 (both in progress)

EDUCATION

John Jay College of Criminal Justice

New York, NY

B.S. Computer Science & Information Security | **GPA: 3.92/4.0** (Summa Cum Laude)

May 2025

- Courses: Cryptography, Computer Security, Networking, Advanced Algorithms, Cybersecurity Capstones I & II
