SUMMARY

IT engineer and Summa Cum Laude Computer Science graduate running identity, endpoint, and security operations for a 300+ user global financial firm — Okta, Entra ID, Active Directory, Microsoft 365, Azure, Intune, CrowdStrike — and building toward cloud and security engineering with AZ-104 and Security+ in progress. Targeting IT Operations, IAM, Systems, Cloud, or Security Engineer roles.

TECHNICAL SKILLS

Identity & Access Management: Okta, Microsoft Entra ID, Active Directory, Group Policy (GPO), MFA/SSO, SAML, SCIM, User Lifecycle Management, Conditional Access, Privileged Identity Management (PIM)

Cloud & Infrastructure: Microsoft Azure, Microsoft 365, Google Workspace, Exchange Online, SharePoint, Egnyte

Endpoint & Device Management: Intune (MDM/MAM, Win32 Packaging, Autopilot), IBM MaaS360, IGEL UMS, Citrix, Patch My PC

Security Tools & Platforms: CrowdStrike Falcon, Microsoft Defender, DUO, Darktrace, Abnormal AI, KnowBe4, Tenable Nessus

Security Operations: EDR Administration, Email Security & Phishing Controls, Vulnerability Remediation, Patch Management, Incident Response, Security Awareness Training, Log Review

Scripting & Automation: PowerShell, Python, Bash, SQL

ITSM & Tools: Jira (ITIL-aligned), Runbook & SOP Development, Slack, TeamViewer, 1Password, LastPass

Operating Systems: Windows 11 Enterprise, Windows Server, Linux (Ubuntu, Kali), macOS

A/V & Conferencing: Zoom, Poly, Logitech

EXPERIENCE

Muzinich & Co (via Gotham Technology Group) — IT Consultant

New York, NY | Aug 2025 – Present

- Own user lifecycle (JML) for 300+ users across Americas, EMEA, and APAC — managing Okta, Entra ID, and Active Directory, with GPO administration, SAML/SSO configuration, and SCIM-based provisioning across 20+ integrated apps.
- Administer Microsoft 365 tenant (Exchange Online, SharePoint, Teams) — mailbox configuration (permissions, forwarding, retention), distribution list and shared mailbox management, and M365 license assignment.
- Configure and deploy centralized endpoint management portal consolidating log collection, hardware diagnostics, and driver update enforcement; coordinate vendor SSO integration and onboard IT admin staff.
- Administer CrowdStrike Falcon EDR and Darktrace — maintaining sensor health, reviewing 20–30+ alerts weekly, clearing Antigena blocks, and quarantining compromised devices; test 10+ weekly patches pre-deployment and remediate zero-day vulnerabilities.
- Package and deploy Win32 applications via Intune and build PowerShell-based detection and remediation scripts to automatically fix update failures and roll out targeted fixes for specific device issues and deployments.
- Administer Egnyte Enterprise File Sharing — managing folder structure, access permissions, folder locking, and user provisioning to enforce data governance across a global tenant.
- Secure email stack (Abnormal AI, Defender) — phishing controls, email quarantine, and domain whitelisting for global users; run KnowBe4 phishing simulations monthly and report aggregate click-rate trends to leadership.
- Resolve 95%+ of L1/L2 tickets on first contact via Jira, consistently exceeding team FCR targets, while supporting C-suite and Bloomberg Terminal users, and participate in rotating on-call coverage for after-hours incident response.
- Author 10+ runbooks and SOPs, cutting new IT staff onboarding time by an estimated 30–40%.
- Administer Citrix XenDesktop — managing user sessions, monitoring resource utilization, and resolving connectivity issues.
- Manage A/V infrastructure — handling hardware upkeep, software updates, and troubleshooting; collaborate with vendors to ensure reliable meeting experiences across executive and company-wide events.

Center for Justice Innovation — Technical Support Analyst

New York, NY | Nov 2024 – Mar 2025

- Administered Active Directory and IBM MaaS360 for 900+ users across multiple office branches — managing accounts, group policies, and security groups; enforcing device compliance for laptops and company-issued phones.
- Provided L1/L2 help desk support via Jira and remotely — resolving hardware, software, and connectivity issues.
- Deployed and configured laptops, desktops, and mobile devices — full workstation setups including monitors, docking stations, peripherals, and printers.
- Performed on-site visits — deploying hardware, training end users, and configuring Zoom A/V systems to support reliable hybrid meeting environments.

Moore Capital Management — Information Technology Intern

New York, NY | May 2024 – Aug 2024

- Resolved L1 end-user issues via Jira for 300+ trading floor employees, minimizing downtime during peak market hours.
- Collaborated with Senior Security Engineer to implement DLP USB device control — integrated user lifecycle with endpoint security to protect sensitive trading floor data.
- Built and deployed 150+ user workstations and peripherals; configured Logitech A/V conference room environments.
- Built company-wide application inventory driving batch patch updates and decommissioning of obsolete software.
