PROFESSIONAL SUMMARY

IT Support Engineer and Security Analyst with hands-on experience in enterprise environments managing Ticketing systems, identity & access management (IAM), endpoint security, and IT operations. Proven expertise in Active Directory administration, Okta SSO, and Microsoft Intune MDM across financial services and nonprofit sectors. Skilled at reducing downtime through proactive monitoring, implementing security controls, and delivering white-glove support to 900+ users.

TECHNICAL SKILLS

- **Identity & Access Management:** Okta, Azure AD/Entra ID, Active Directory, Duo Security, MFA/SSO Implementation, Last Pass, 1Password, Google Password Manager
- **Endpoint & Device Management:** Microsoft Intune, IBM MaaS360, IGEL UMS, Citrix XenDesktop, Group Policy (GPO)
- **Security Tools & Platforms:** CrowdStrike Falcon, Microsoft Defender, Darktrace, Abnormal AI, Mimecast, Splunk SOAR, KnowBe4, Tenable Nessus, Snort IDS, Wireshark
- **Cloud & Infrastructure:** Microsoft 365/Azure, Exchange Online, SharePoint, Office 365 Administration
- **Ticketing & ITSM:** Jira, Outlook, Teams, Slack, IT Service Management workflows
- **Security Operations:** Log analysis, threat detection, phishing simulation, vulnerability scanning, DLP implementation
- **Scripting & Automation:** PowerShell, Python, Bash, SQL queries
- **Operating Systems:** Windows 10/11 Enterprise, Windows Server, Linux (Kali, Ubuntu), Chrome OS

WORK EXPERIENCE

Muzinich & Co

IT Consultant

08/2025 – Present

Manhattan, NYC

- Administered Active Directory Domain Services ADDS and Intune MDM for 300+ users, performing user provisioning, device enrollment, conditional access policies, and compliance management by reducing onboarding time by 40%.
- Resolved 95% of L1 & L2 support tickets on first contact, delivering premium white-glove service, minimizing downtime for users including C-level executives and trading floor staff both in-office and remotely.
- Help implement and maintain Okta Single Sign-On (SSO) integrations for 25+ enterprise applications using SAML, OAuth protocols, reducing password reset tickets by 45%.
- Performed identity lifecycle management including onboarding, role changes, and offboarding workflows, ensuring compliance with SOX and data privacy requirements.
- Created, customized, and managed phishing-simulation templates in KnowBe4, training users to recognize and report threats and boosting company-wide security awareness by over 60%, while reducing phishing click-through rates by more than 55%.
- Managed Endpoint Detection and Response using CrowdStrike Falcon, updating sensors, investigating alerts, and coordinating with SOC for threat remediation.
- Manage Okta IAM by overseeing access permissions, deactivating accounts, resetting authenticators, issuing temporary passwords, and reviewing activity logs to determine the root cause of access and authentication issues.
- Worked alongside senior network and security engineers to support and validate a full-scale Azure disaster recovery test for the organization.
- Oversee Citrix XenDesktop and Citrix Director, ensuring seamless user access by managing session terminations, freeing disk space, restarting systems, monitoring network performance, and troubleshooting connectivity issues.
- Conducted log analysis and threat hunting using Microsoft Defender, Darktrace, and Abnormal AI to identify and remediate security incidents, improving Mean Time To Detect by 30%.
- Configure and Manage Zoom & Poly Admin to ensure secure and efficient meetings including A/V setups in conference rooms and on users' personal devices, especially for communication with overseas teams.
- Deploy, configure and decommission laptops, PCs, and mobile devices, including desk setup, monitors, printers, docking stations, headsets, and cameras.

- Support Bloomberg Terminal and API services for all Bloomberg users, collaborating with Bloomberg Support to expedite issue resolution, and installing/troubleshooting the Bloomberg Excel Add-in to ensure seamless financial data integration for traders and analysts
- Partner with security engineers to integrate security into laptops, applications, and system designs; perform pre-deployment testing of weekly security patches, distribute approved updates company-wide, and remove software vulnerable to zero-day exploits
- Administer IGEL devices via the IGEL Universal Management Suite, shadowing users, Remotely Troubleshooting, restarting/shutting down devices, managing upgrades (e.g., RAM), and overseeing the secure decommissioning process.

Center For Justice Innovation

11/2024 – 03/2025

Technical Support Analyst

Manhattan, NYC

- Administered Active Directory and IBM MaaS360 MDM for 900+ users across 6 locations, maintaining user accounts, group policies, security groups, and device compliance.
- Managed IT asset lifecycle including procurement, imaging, deployment, and decommissioning of 200+ laptops and mobile devices.
- Provided Level 1-2 helpdesk support via ticketing system (specify which one), achieving 92% first-call resolution rate and 4.8/5 user satisfaction score.
- Traveled to branch offices to deploy IT hardware and train staff, improving onboarding efficiency for new hires.
- Configured and supported conference room technology (Zoom, cameras, A/V systems), enabling reliable hybrid collaboration across teams.

Moore Capital Management

05/2024 – 08/2024

Information Technology Intern

Manhattan, NYC

- Provided L1 support to the trading floor, minimizing downtime for trading operations during peak market hours.
- Partnered with the Senior Security Engineer to implement DLP USB device control solutions, integrating user lifecycle processes with enhanced endpoint security measures to protect sensitive trading floor data.
- Collaborated with the Helpdesk Manager and Senior Information Security Engineer to increase knowledge of IT & Security operations and enhance operational management skills.
- Troubleshot end users' issues via the ticketing system, ensuring timely and effective support to over 300 employees.
- Configured and updated Zoom conference rooms within the enterprise, including Logitech cameras.
- Created an application inventory sheet, ensuring timely updates, batch processing, and removal of outdated apps.
- Built and deployed 100+ user workstations, monitors, docking stations, and desktop VOIP phones.

EDUCATION

John Jay College of Criminal Justice

Graduated May 2025

Bachelor of Science in Computer Science and Information Security

Manhattan, NYC

- GPA: 3.92/4.00 (Summa Cum Laude)
- Coursework: Computer Networking, Advanced Algorithms, Cryptography, Data Structures, Computer Security, Programming Languages, Capstones 1 & 2 in Cybersecurity.

IT TRAINING & PROJECTS

- Built a **Compact Virtual Home Lab for a Small Enterprise**, integrating a Microsoft **Server 2017**, **Active Directory**, group policies, and Windows 10, and implemented multi-platform security across Windows and Linux environments.
- Developed a program in **Python** for **encrypting and decrypting** documents securely using **RSA encryption** technique.
- Created and deployed a **Honeypot using T-Pot**, leveraging **Azure cloud** hosting for configuration and implementation.
- Deployed **Snort IDS on Kali Linux**, analyzed attacks using **PCAP files**, and documented findings for threat assessment.
